

**Off by Heart Facts**  
**Year 4 Summer 1**

I can order and compare numbers over 1000

I know the value of each digit in a 4 digit number.

Multiply two-digit and three-digit numbers by a one-digit number using, firstly the grid method and working towards the expanded method

Recap telling the time from an analogue clock, including using Roman numerals from I to XII, and using 12 and 24hour clocks

Recap rounding whole 3 and 4-digit numbers to the nearest 10

**Top Tips for Home Learning**

**Do little and often**

Use dates of famous events to order them i.e. battle of Hastings, World War II, Justin Bieber born, Obama voted president in USA, etc.

Value of digits-give examples such as-

A) 2,047

B) 4,012

C) 45,023

What's the biggest/smallest number you can make with 5,2,6,4? How do you know?  
(vary the digits presented)

Ask questions related to time.

How many days in 2 weeks?

What is 3 hours in minutes?

We are meeting friends at 11:30, it's now 10: 50, how many minutes until we meet them?

Explain how you solved each problem.?

Can you calculate these?

e.g.  $26 \times 4 =$

	x4
20	80
6	24

+ \_\_\_\_\_  
104

$356 \times 7 =$

	x7
300	2100
50	350
6	42

+ \_\_\_\_\_  
2492
