

**Love Maths Facts**  
**Year 1 Autumn 1**

Count to twenty and back

Know one more and one less/fewer within 10:

1 more than 1 is 2	1 fewer than 10 is 9
1 more than 2 is 3	1 fewer than 9 is 8
1 more than 3 is 4	1 fewer than 8 is 7
1 more than 4 is 5	1 fewer than 7 is 6
1 more than 5 is 6	1 fewer than 6 is 5
1 more than 6 is 7	1 fewer than 5 is 4
1 more than 7 is 8	1 fewer than 4 is 3
1 more than 8 is 9	1 fewer than 3 is 2
1 more than 9 is 10	1 fewer than 2 is 1
1 more than 0 is 1	1 fewer than 1 is 0

Be able to read the numbers up to 20 when written in words:

One, two three four five six seven eight nine ten  
eleven twelve thirteen fourteen fifteen sixteen  
seventeen eighteen nineteen twenty

Recognise the spot patterns on a dice up to 6-  
without having to count the spots!

## **Top Tips for Home Learning**

### **Do little and often**

Rhyming songs such as `Ten in the Bed` are good to help learn counting skills.

If they can count back from 20 to zero, can they count from 9 and stop at 3? 8 and stop at 2?  
(You will find many rhyming songs-with actions-on youtube)

Have a number hunt around your house/in the street-find numbers and put them in order

You could write the numbers out to start with or use a pack of cards. Your child could put them in order and then use them to support a backwards count.

To support your child in working out one more or one less you could count, pausing at the number they need.

For example,

To work out 1 less than 6, you could say

10,9,8,7,6,.....

Write numbers on the floor/cards to put on the floor and jump 1 more/less than a number.

Play lots of dice/domino games with your children so that they become familiar with the numbers in spot form.
